

Orchard Field Trips

Host your Field Trip in our Orchard!

Enrich your field trip experience with hands on lessons!

August

Sunflowers and Soil

September

All About Apples

October

The Perfect Pumpkin

Orchard Field Trips are a fun, unique, and educational way to experience our orchard with your group. Beginning at our Crop Adventure Building, one of our tour guides will lead you to and through our orchard as they cover topics like plant nutrition, orchard farming practices, and what makes our orchard unique!

Groups during the month of August will focus on "Sunflowers & Soil." During September, Orchard Field Trips will be "All about Apples." In October, visit with your group as your orchard tour features lessons about "The Perfect Pumpkin" in our pumpkin patch.

Group members visiting during Sunflower month will take home a sunflower. During Apple month, individuals will receive a complimentary 5lb apple bag to fill and take home. In October, each member will receive choice of a 5lb bag of apples or a pie pumpkin!

Orchard Field Trips typically last 1.5 hours but can be customized to meet your needs. Please discuss timing needs, additional experiences, or group catering with our staff when booking. **Minimum Group Size of 20 required- \$7/person**
